*"I have been a customer of Reinhardt Home Heating for over three years. I would like to take a moment and express how great it has been to work with you folks for all my heating needs."*

*Over the years I have gone from having an apartment with gas to owning my own home that works with both gas and oil. Reinhardt Home Heating has been there to help me through this transition. During the purchase of our new house I did not even think twice about having Reinhardt replace my oil tank because I knew they would do it quickly and competently. The security that comes from having such a great relationship with my oil and gas provider is priceless and I cannot thank you enough for all that you do for myself and my family. I hope all of you realize that the work you do is valued and appreciated. From the ladies that answer the phones to the prompt technician, who came to fix my thermostat, I know I can count on you."*
